ACADEMICS

CURRICULUM

Our curriculum is skills-based, focused on developing necessary linguistic expertise in six major areas: reading, writing, vocabulary, grammar, listening and speaking. The best approach to developing these new linguistic skills is the same way we learned our native language, “organically”. Languages are not meant to be memorized, but rather practiced and used on a daily basis to master the language.

FACULTY

Every member of our faculty holds a Bachelor’s Degree and a TESOL Certification. Besides looking for professionals with the required educational background, we seek teachers who have international teaching experience.

PLACEMENT TEST & ORIENTATION

On the first day of class, students sit for a comprehensive Placement Exam. Following their exam, students attend a welcome orientation where detailed information regarding visa regulations, accommodation, medical insurance coverage, etc. will be provided. The next day, students will be placed in the class and level based on their test results.
ENTRY POINT

Each level lasts ten weeks and is subdivided into five 2-week units called “blocks”. The blocks are designed to be as self-contained and non-cumulative resulting in a progression of skill development, which will maximize the learning experience.

Students may commence their language studies at the beginning of any 2-week block, however, we recommend starting at the beginning of block 1, 2 or 3.

CLASS SIZE

Our average class size is 12 students. However, our classrooms can easily accommodate 15 students. This small group setting maximizes interaction and allows students to receive the individual attention required in a successful student-centered curriculum.
